

# CROSSWINDS

*The Official Newsletter of the Fallbrook Community Airpark*

**ADDITIONAL SECURITY** As you no doubt know by now, we have a new lift gate at the end of the public parking area and before you go down to the air side of the airport. This new security feature was part of our TSA grant for all of the new fencing you've seen go up and should help us cut down considerably on people wandering onto the runway and taxiway with their cars. It will also add an additional layer of security for the aircraft based at the Airpark. **AIRCRAFT HANGAR MANAGEMENT** AHM is well underway with the second phase of their development. 21 new additional hangars are nearly completed, which brings their total development to 38 hangars and Nine tie-down spots. A small office area has been included, in addition to the California Aero Marketing aircraft maintenance building and those offices. When people who haven't visited Fallbrook Airpark for a long time see how much the airport's landscape has changed, they think they've made a wrong turn somewhere along the way. We congratulate Lee Ayres and his people for doing such a great job with this huge project. **LOCK DOWN** Because we continue to have problems with people and vehicles using the transient road for the wrong reason, we've blocked the road with barricades and chains. Given a couple of recent accidents in this area, this is a dangerous situation and had to be addressed. There is a North County Fire Department lock on the chain so that they have access in the case of an emergency, otherwise it's closed off to ALL other vehicle traffic not involved in the airport's maintenance. **FAAC NEWS** Fallbrook Attorney and Mooney owner, Carl Morrison, has been nominated by the Fallbrook Airport Advisory Committee to fill

Our new lift gate should help us with both runway incursions and security for aircraft at the Airpark.

Carl Morrison was recently nominated to fill a vacant position on the Fallbrook Airport Advisory Committee.

a vacancy created by the resignation of Tom Brotherton. The nomination must be approved by the County Board of Supervisors. In the meantime, we must thank Tom for his many, many years of service to the Airpark. **ATVs** That spiffy new candy apple red airport vehicle you

Aircraft Hangar Management puts the finishing touches on the final stages of it's Airpark development.

see the airport staff zipping about in are a welcome tool for the airport staff. Not only can they go to places larger vehicles can't, these rugged ATVs are equipped with a dump truck bed and can be used to haul just about anything. Soon, we'll have a universal tug bar to go with the package so that we can help a stranded aircraft, if needed.
